SUMMARY

Results-oriented Software Engineer with a proven track record of optimizing project outcomes through modern web technologies. Skilled in React, Next.js, and strategic problem solving within collaborative development teams. Seeking a challenging role to leverage technical expertise, build scalable applications, and drive engineering excellence.

TECHNICAL SKILLS

Frontend Technologies:

- React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, jQuery

Web Development Concepts:

- Responsive Web Design, Component-Based Architecture, Frontend Performance Optimization

API & Integration:

- REST API Integration, Authentication Implementation

Tools & Development Environment:

- Git, GitHub, npm/yarn, VS Code, Chrome DevTools

Soft Skills:

- Problem Solving, Team Collaboration, Communication, Time Management, Adaptability, Continuous Learning

WORK EXPERIENCE

Jun 2025 - Present

Frontend Intern , Zapta Technologies (pvt Limited) Lahore

- Developed responsive web interfaces using HTML, CSS, and JavaScript, ensuring cross-browser compatibility and clean, maintainable code.
- Implemented dynamic UI interactions and DOM manipulation using jQuery to improve user experience and frontend functionality.
- Strengthened core JavaScript concepts and transitioned to modern frontend development by building reusable UI components with React.js.
- Developed scalable web applications using Next.js, utilizing features such as file-based routing and performance optimization.
- Integrated RESTful APIs and authentication systems, enabling secure user login and efficient data communication between frontend and backend.

PROJECTS

Olyra - Health and Wellness Plateform [Live Demo](#)

- Health-focused web app providing wellness and nutrition insights.
- Built with Next.js for fast performance and seamless navigation.
- Interactive charts and graphs using ECharts.
- Global state managed with Zustand.
- Multi-page questionnaire for personalized user input.

Tech Stack: Next.js, TailwindCSS, ECharts, Zustand

UsamaCart - Ecommerce Store [Live Demo](#)

- E-commerce store built with React.js.
- Products retrieved from FakeStore API and Shopping cart managed using useContext.
- Responsive design for seamless desktop and mobile experience.
- Interactive UI with product listing, details, and cart functionality.

Tech Stack: React.js, TailwindCSS, Context API

EDUCATION

Bachelor of Science in Software Engineering

Nov 2021 - Jun 2025

The Islamia University Of Bahawalpur

CGPA : 3.41
